[DAN.ORG/STORE](https://dan.org/store)

## TRUSTED WORLDWIDE

Every day, divers and emergency-response personnel around the world trust DAN's oxygen units and first aid kits to perform in an emergency. That's because DAN's products have been developed, tested and refined with input from leading doctors and researchers to meet the discriminating requirements of the diving community. Be ready to respond. Explore [DAN.org/STORE](https://www.dan.org/STORE) to make sure you are prepared with the latest safety equipment to effectively handle any dive emergency.

# OXYGEN UNITS

DAN's oxygen units are designed to withstand the rigors of professional use. Waterproof cases provide protection for the oxygen components in even the harshest marine environments to ensure that you'll be able to respond in the event of an emergency.

## Emergency Oxygen for Scuba Diving Injuries Course

When a diving accident occurs, being able to recognize the problem and respond with the appropriate care can speed the diver's recovery and minimize the long-term impact of the injury.

This course teaches the techniques of emergency oxygen administration for suspected diving injuries and nonfatal drowning. Students learn how to identify, respond to, and manage an incident.

# OXYGEN ACCESSORIES

DAN's oxygen unit accessories are designed to give the best performance for your emergency response needs. Complete, restock or update your oxygen kit to ensure you are ready for any situation.

## DEMAND VALVES

Our reliable demand valves have the same design as those used by professional EMS. The standard demand valve allows oxygen to flow freely for the treatment of conscious divers. The dual-function Manually Triggered Ventilator (MTV-100) can be used to ventilate divers who are not breathing.

- 611-3000 Demand Valve with 6-Foot Hose
- 611-3100 MTV-100 Demand Valve w/Hose
- 611-6007 Green Hose for Demand Valve

## REGULATORS

With its durable body and heavy-duty brass core, these regulators fit all DAN oxygen tanks and are designed to provide oxygen using both demand and constant-flow delivery. Features a pressure gauge measuring up to 3,000 psi for easy readability.

- 611-2000 Brass Multifunction Regulator
- 611-2100 H Regulator w/ CGA-540 Fitting
- 611-9000 Oxygen washer for Multifunction regulator
- 611-7000 Handwheel Wrench
- 611-2101 Wrench for H Regulator

## OXYGEN CYLINDERS

DAN's seamless aluminum oxygen cylinders are 40 percent lighter than steel and come in Jumbo D or M9 cylinder sizes. International white-shoulder cylinders are available. Cylinders are shipped empty for safety.

- 611-1023 M9 - White Cylinder
- 611-1013 Jumbo D - White Cylinder
- 611-1010 Jumbo D Cylinder
- 611-1020 M9 Cylinder

## MASKS

The non-rebreather mask provides a constant flow of oxygen for breathing divers and can be used in situations in which two divers need oxygen simultaneously. DAN's Oronasal Resuscitation mask is equipped with an oxygen inlet for mouth-to-mask ventilations and provides additional oxygen to nonbreathing, injured divers. This mask can be used with a Demand Valve or MTV-100.

## OXYGEN UPDATE KITS

DAN's Oxygen Maintenance Kits contain everything needed to renew important oxygen unit components. Comes complete with nitrile gloves, a Non-Rebreather mask, an Oronasal Resuscitation mask, two oxygen O-rings, a DAN O<sub>2</sub> unit slate, a tank sticker and an "Oxygen Onboard" sticker.

- 601-7500 Oxygen Annual Update Kit
- 601-7600 Soft-Pack Full O<sub>2</sub> Update Kit
- 601-7700 Full O<sub>2</sub> Update Kit for 1450 Pelican Case
- 601-7800 Full O<sub>2</sub> Update Kit for 1600 Pelican Case

# FIRST AID KITS

DAN's first aid kits enable divers to be prepared in the event of an emergency on the boat, on the beach or in the dive shop. Our line ranges from compact kits that are suited for minor injuries to comprehensive solutions designed to treat serious injuries. Be ready for the unexpected with DAN first aid kits.

## First Aid for Hazardous Marine Life Injuries Course

Divers may experience unintentional encounters with fire coral, jellyfish and other sea creatures within the marine environment. DAN's First Aid for Hazardous Marine Life Injuries course teaches divers how to identify and avoid potentially harmful marine life. It also teaches the first aid skills to minimize these injuries and reduce discomfort in the event of a sting or bite.

# TRAINING MATERIALS

DAN training educates divers and medical professionals about the best practices in providing care for dive injuries.

## INSTRUCTOR DIGITAL TRAINING PACKS

DAN's Instructor Packs give the instructor candidate the teaching aids required to conduct DAN programs. This complements the digital instructor training materials.

- 390-0100 DEMP IQC Instructor Pack
- 390-0300 DAN IQC Instructor Full Suite

## STUDENT TRAINING PACKS

DAN's Student Training Packs complement DAN's online learning program. Each kit contains the specific components that a student needs to complete a specific training module.

- 390-0010 Complete DEMP Student Kit
- 390-0020 Complete EO2 Student Kit
- 390-0030 Complete BLS: CPR & First Aid Student Kit
- 390-0040 Complete HMLI Student Kit
- 390-0060 Complete CPR: HCP Student Kit
- 390-0070 Complete DFAPro Student Kit

## TRAINING SLATES

These waterproof training slates are printed on plastic and complement DAN'S Diving Emergency Management Program (DEMP).

- 381-6000 DEMP Slate Set (6)
- 381-6010 DFA Pro Student Slate Set (6)
- 351-3250 O2 Maintenance Slate
- 351-3280 Emergency Oxygen for Scuba Diving injuries Slate
- 351-3480 First Aid for Hazardous Marine Life injuries Slate
- 351-3900 CPR: HCP Slate
- 361-3280 Neurological Assessment Slate
- 381-3880 Basic Life Support: CPR & First Aid Slate

### LITTLE ANNE QCPR MANIKIN

A realistic, inexpensive, lightweight adult CPR trainer that offers all the essential features.

- 671-0100 Little Anne Manikin w/ QCPR Upgrade Kit
- 671-0200 Little Anne Manikin Face
- 671-0300 Little Anne Manikin Airway

### LITTLE ANNE INFANT CPR MANIKIN

Designed to simulate the weight and size of an infant. A low-cost, life-like infant CPR trainer.

- 671-0400 Infant CPR Manikin
- 671-0500 Infant CPR Manikin Face
- 671-0600 Infant CPR Manikin Airway

### TOURNIQUET TRAINER

Lightweight tourniquet occludes arterial blood flow in an extremity. Training use only.

- 671-2710 Tourniquet Trainer

### RESCUER MVP MANUAL VACUUM PUMP

This lightweight, high-vacuum suction device is powered with one-hand operation. Maximum suction exceeds 500mmHg.

- 671-2200 Manual Vacuum Pump

### BULB SYRINGE

Used for suctioning infant airways. Designed for first aid with infants and small children.

- 671-2300 Bulb Syringe

### EPIPEN TRAINER

Teaches proper technique and protocol of EpiPen use and administration. No medical authorization is required.

- 671-2400 EpiPen Trainer

# DAN GEAR

Show your commitment to dive safety with DAN gear. Our apparel and accessories are top quality to provide style and performance no matter where you travel.

## GEAR MAT

GEAR MAT  
501-3100

Lightweight shell & fleece-lined interior

Secure, zippered pockets

Adjustable cuffs

Removable hood

761-2700

761-2600

## DAN CREW JACKET

DAN's new unisex crew jacket features a durable, water-resistant fabric ideal for divers, boaters and anyone who loves the water. Its mid-weight design, zippered pockets, adjustable cuffs and a removable hood make this jacket versatile and comfortable to wear. Available in black/gray or black/white color combinations.

Sizes: Small, Medium, Large, Extra Large

501-6100

### DRYBAG BACKPACK (30L)

With a large main storage compartment, two smaller zipper pockets and adjustable shoulder straps, you'll quickly discover how versatile this bag is for dive trips or vacations.

501-4005

### COMPACT DRY BAG (15L)

Your gear will stay dry inside this round-bottom dry bag. Shut out water by rolling down the top and snapping the side release buckles together. Features a supportive shoulder strap and carry handle.

501-4010

### NYLON DRYBAG BACKPACK (15L)

DAN's 15L nylon drybag is ultralight, ultrathin and foldable. It comes with a storage bag, removable shoulder straps and two side pouches.

501-6900

### TRAVEL BACKPACK

This exclusive design has a designated laptop section, main zippered compartment with file divider, interior side pockets and removable TechTrap elastic organizer panel. Zippered media pocket accesses ear bud port. Padded back and shoulder straps for comfort.
