

Divers Alert Network® (DAN®) has confirmed that all the companies on this list are currently certified Allied Healthcare Products, Inc. service centers. The products that they service include **oxygen regulators, demand valves, and manually triggered ventilators (MTVs)** that are found in DAN oxygen units.

DAN recommends that these products be serviced every two years. Information about product maintenance can be found at www.DAN.org/Safety-Prevention/Operation-Safety/Operational-Safety-Resources. *Please note that equipment owners should contact their selected service company to confirm availability and shipping requirements before sending any product for servicing.*

For questions or clarification, please contact DAN Risk Mitigation at RiskMitigation@DAN.org or +1-919-684-2948, Option 2.
